Draw the book cover, with the title and

Why would the slug like this book? Explain.

I couldn't BEE any happier that you've chosen to download from my shop! THANK YOU!

I love to create original, imaginative products for elementary school teachers and librarians. Every single thing I post on here has been road tested by me in my elementary school library, where I teach students in preK through fifth grade, with all ability levels. I revise and refine each product BEFORE I make it available in my shop!

Please rate my product, and, if you like it, mark me as a favorite shop. It helps me to know how my creations are working for you!
